EDUCATION

ABES Institute of Technology

Bachelor of Technology in Information Technology

Ghaziabad, UP

2023 – 2027

ACHIEVEMENTS

- **Smart India Hackathon 2025 — Winner** — Problem ID: SIH25024 — Team: LEXCORPS (ID: 55589) — Built a cloud-based ayurvedic diet planning and practice management platform (MedTech/HealthTech track); delivered full feature streak tracking and shipping pipeline.
- **Hackstreet 2024 — Winner** — Built an AI-powered Sign Language learning platform for deaf and mute students, securing 1st place among 200+ teams.
- **HackArCode 2024 — Winner** — Delivered a full-stack solution under 24 hours, recognised for code quality and real-world applicability.

EXPERIENCE

Frontend Engineer Intern | Campus Pull

Remote / Hybrid

Feb 2026 – Present

- Built the **Resources Hub** (Study Notes, Roadmaps, PYQs) — a full-stack interactive web app with URL-synced search via `useSearchParams`, debounced multi-filter sidebar (branch, semester, difficulty), reducing redundant API calls by **~60%** and improving page load performance.
- Engineered **role-based access controls** (Admin/Teacher/Alumni/Student) with dynamic authentication prompts and guest-browsing limits; managed global state across **16 React Context providers**; **demonstrated ownership and clear communication** (Auth, Socket, Chat, Notifications, Resources) and integrated live REST APIs for Internship and Mentorship portals with scalable backend architecture.
- Architected **real-time peer-to-peer chat** (Socket.IO) with read receipts, unread tracking, and multipart file attachments; built a zero-dependency **profile image cropper** using HTML5 Canvas 2D API, eliminating a third-party library; delivered mobile-first, responsive, cross-browser layouts with Tailwind CSS across all product surfaces.

PROJECTS

AyurNutri github.com/npmshrey/AyurNutri *Next.js, React, Redux, Node.js, Express.js, MongoDB, WebSocket, Tailwind CSS*

- AI-powered healthcare and **personalisation platform** with diet-chart generation; WebSocket-based real-time patient monitoring dashboard with concurrent session handling — won **Smart India Hackathon 2025**.
- Implemented **Redux state management (personalisation, diet modules)** across auth, patient, and diet modules; built RESTful APIs with MongoDB, **SEO-optimised** Next.js pages, performance-tuned rendering, and CI/CD pipeline via GitHub Actions.

WanderLust github.com/npmshrey/WanderLust

Next.js, React, Node.js, Express.js, PostgreSQL, JWT, Passport.js

- Full-stack property-rental **web application** with SSR landing pages (Next.js) for SEO, authentication via JWT + HTTP-only cookies + Passport.js, payment-ready checkout flow, and category-based property filtering.
- Implemented end-to-end features: listing management, ratings, reviews, destination search, and persistent session management; schema designed for scalability on extbfPostgreSQL; full backend and state management handled end-to-end.

Lane Violation & Recognition System github.com/npmshrey/Lane-Violation *Python, OpenCV, Computer Vision, SMTP*

- Achieved **87%+ detection accuracy** on real-world live video feeds; automated incident reporting pipeline via SMTP with timestamp-based audit logging; optimised image processing workflows using OpenCV.

TECHNICAL SKILLS

Languages JavaScript (ES6+), TypeScript, Python, C/C++, SQL

Frontend React.js, Next.js, Redux, Tailwind CSS, HTML5, CSS3, Socket.IO, Canvas API

Backend Node.js, Express.js, NestJS, REST APIs, WebSocket, JWT, Passport.js

Databases MongoDB, SQL

Tools Git, GitHub, Postman, VS Code, SEO, Performance Optimisation

AI / Cloud Anthropic Claude API, AI-assisted Development, Oracle Cloud Infrastructure (OCI DevOps Certified)

CERTIFICATIONS

- **Oracle Cloud Infrastructure 2025 Certified DevOps Professional** — CI/CD pipelines, Kubernetes orchestration, cloud deployment workflows.
- **Anthropic Claude Code in Action Certified** — AI-assisted software development and agentic coding workflows.
